James-

I don't know how we can ever thank you enough for all the services you have provided our program. The feedback since I have been back has been unbelievable. The feeling floating around here is that they are sorry it's over. Everyone giving thanks to your eye-opening and heartfelt presentation. They are so appreciative that you have the guts to go out and speak about a topic that many wouldn't dare under Corporate America's umbrella; you have inspired a great many people.

God has given you a very special gift James and I'm so very grateful that we have continued to work together.

Your friend,

Greg

P.S. I love the Sports Coasters!!! Thanks!!!! We can use them for our Sour Apple Martinis next time.....

and remember me matey.....
