- I've heard Motivational Speakers in the past and he's definitely one of the best. I really enjoyed him and hope we can have him back next year.
- I kids you not, if the speaker is allowed to come back and speak you should run not walk to his next showing.
- I think I will use more personal and positive attitude toward my provider contact in the future
- I walked away feeling rejuvenated
- I would highly recommend him for future seminars.
- I didn't want it to end, awesome seminar
- The best I ever heard, refreshing, motivating, it was not long enough.
- Bring him back, fantastic, two thumbs up
- I have not laughed that much in a long time and learned new things
- Do it again
- I am grateful...the best seminar I've ever attended
- I agree with the speaker's definition of customer service but I don't think executives do. They should attend his seminar. Employees are not treated like people.
